Dr. Marta Wolf

Expertin für Hochbegabung | Ich helfe Eltern und Schulen, hochbegabte Kinder zu erkennen und zu fördern | Begabungsdiagnostik · Elternberatung · Lehrerfortbildung
Düsseldorf, North Rhine-Westphalia, Germany

Summary

Every gifted child deserves to be understood before they are graded.

I am a certified giftedness consultant (Begabungspädagogin) and I help parents and schools recognize, understand and support gifted children - strength-centered, solution-oriented and practical for everyday life.

What I do:

- Begabungsdiagnostik and potential analyses for targeted support
- One-on-one Elternberatung: individual support plans matched to the child's personality and the family's situation
- Teacher training and school workshops on recognizing giftedness in the classroom
- Support with emotional and social challenges: Hochsensibilität, perfectionism, social exclusion, underachievement

Why me:

Before founding my consultancy I spent 20 years in HR leadership at Deutsche Telekom, BuyIn and PVH Corp., where I built talent development programs and learned how potential gets overlooked in large systems. I hold a doctorate on organizational culture and completed my certification as Begabungspädagogin. I have since supported more than 60 families and run workshops for schools across the Rheinland.

If you are a parent who senses your child is different, or a school that wants to stop losing its brightest students to boredom: send me a message or book a first conversation via my website.

Top Skills
